

DCI/IC 75-0936
8 July 1975

MEMORANDUM FOR: D/DCI/IC

SUBJECT: Response to Request from
Paul Mann, AID

1. Per your request, I asked [] to telephone Mr. Mann (632-8298). He did so on 2 July 1975. Mann indicated his primary concern was for names of potential candidates to be hired to run his computer facilities. He expressly requested user-oriented individuals who can make do with the current system (reportedly only 60% committed) as opposed to hardware/software sophisticates who will recommend additional purchase or modification to the equipment. Research of interested applicable personnel and oblique consultation with former associates only dredged forth one prospect:
